# ANNUAL REPORT-2013-14

*Dear friends,*

It gives me great pleasure in presenting the Annual Report 2013-14 of Sakaar Outreach. We started our journey a decade back with a community health care programme with like minded associates. Since then all these years have been very eventful for me because we moved forward towards our goal of conducting meaningful exercise for the empowerment, upliftment and well being of the urban poor living on the fringe of our great city. These families who just manage to earn a living and constitute a sizable portion of our population need a window of opportunity to help them realize at least a part of their aspirations. They need all our care, love and nurturing to help them grow with us.

Since inception from a small beginning of working on health and vocational training issues, Sakaar Outreach has today made significant inroads in the field of education, vocational training, HIV/AIDs, women empowerment, health, environment, strengthening human capabilities etc. They have built institutions of self governance at the slum community level. Sakaar Outreach has undertaken various programmes and functions through its 14 community based centres in South, South East Delhi, Gujarat, Haryana, and Uttarpradesh.

Sakaar Outreach is today considered an oasis by many and continues to grow and make an impact on the lives of thousands of people. Sakaar Outreach has endeavored to provide equal opportunities to the underprivileged. Education and empowerment of women continues to be the core concern of our organization as it seeks to improve the quality of life in a country where women lag behind men in every aspect of life.

Credibility based on transparency is the main strength of our organization, which has always been striving to practice the best norms in human relation and man management.

We firmly believe in our work and that speaks for us. Sakaar Outreach has persevered for the past 13 years and will continue to do so in the future, We serve with dedication, absolute honesty, complete transparency, single minded commitment and heartfelt passion. This is our objective and we will never compromise on these basic principles.

This annual report will give you an idea of the kind of activities we have been involved in. Today we are at the threshold of the next big step. We have learned over the past years and we hope to convert that knowledge and experience into action for the greater good of the people we serve.

I would like to take this opportunity to thank and acknowledge the contributions made by several people from different walks of life in support of our cause. Last but not the least I would like to specially mention the services rendered by the team of Sakaar Outreach without whose active effort and support we could not have reached our goals.

Warm regards,

Gayatri Prakash  
Founder & General Secretary

# EDUCATION

The Education Programme in Sakaar Outreach has blossomed from a tender sapling into a strong fruit-bearing tree of learning. In the years of the inception, there was a gleam in every eye and a dream in every heart for the education programme to grow in multi folds. We work with vulnerable children and their living environment through an integrated inducement and support program that aided the learning process. Through this process we wanted to reach out to children from illiterate families. We also provided quality basic education. Some of these children were ones who had left their education due to various family circumstances. They have been able to resume their study now through this program. We understand that formal education is not sufficient to achieve the desired benefits for the marginalized, vocational training is made an integrated part of the educational programme, so that they become economically independent.

## Empowering Teacher

In house training Workshops were conducted on the following

- 1) report writing
- 2) Teaching methodology
- 3) Know your child

## Shiksha Kendras

Sakaar Outreach SHIKSHA KENDRA is operational in Delhi Public School premises at Vadodara, Gujarat with the same facilities and faculty as are available to the 'regular' students of DPS. The SHIKSHA KENDRA is based on the philosophy of inculcating life skills in children and making learning a joyful process. At SHIKSHA KENDRA, we have provide stationery, uniforms, school bags, shoes and food free of cost to the children.

## COMMUNITY DEVELOPMENT PROGRAMME

We conducted regular contact programmes with community members where, apart from school related issues, we discuss and impart information on various social issues such as

- Development of psycho-social skills for care of infants and children
- Development of organizational skills
- Motivating parents to send their children to school
- Encouraging parents towards immunization and vaccination
- Child care practices and maintenance of records
- Social awareness and responsibilities
- Citizen rights and responsibilities
- Creating support groups for parents
- Creating youth associations
- Self defense training
- Disaster Management – man-made as well as natural
- Assistance on medical, physical, social and spiritual levels

## LIBRARY( Bringing books and children together)

Library plays a crucial role in the learning process of first generation learners. This is done through promoting the habit of reading amongst the children.

# ANMOL (NARI VIKAS KENDRA)

**SAKAAR OUTREACH's skill training programme further ensures self reliant and secured future for the beneficiaries.** The aim is to empowering women through income-generating activities. It is an integrated approach to train women to make them self-sustainable. Self-help groups are formed regularly and with every new group, a few more women find their voice and move towards self-reliance by training themselves in various skills, savings and credit, loaning and inter loaning. We also organize health camps along with free distribution of medicines. After the completion of the course women are either self-employed or are working in various export houses / boutiques and MNC's.
